Dear Students,

Greetings

As language takes a vital role in our day-to-day life, this course introduces you to '**Linguistics**'. The word 'linguistics' has been derived from the Latin word *lingua* which means *tongue* and *istics* which means *knowledge or science*. Thus, linguistics is the scientific study of the systems/principles underlying human languages.

[Announcements](#)

▼ UNIT 1: LINGUISTICS

Linguistics as a science; branches of Linguistics; Scope of Linguistics; human and non-human communication; Phonetics and Phonology; Morphology; Syntax; Semantics; IC Analysis and Transformational Generative Grammar.

▼ UNIT 2: PHONETICS

Phonetics and Phonology of English; air stream mechanism; classification of sounds: major classes; vowels; consonants, place and manner of articulation, phonetic transcription – IPA: broad and narrow transcription.

Sociology-I (Introduction to Sociology)

by Protima Brahma - Monday, 31 July 2023, 10:04 AM

Course Objectives

This course begins with the basic and formal introduction of sociology discipline. The introductory course aims to develop students on basic understanding of the important use of sociological concepts and 'sociological imagination' for broader outlook and analysis of social reality.

Course outcome

It is built in a systematic way to familiarize students with the basic sociological themes and concepts, which to enhance their ideas and to highlight the sociological significance in contribution to knowledge field as well as professional career.

Course Objective

Collapse all

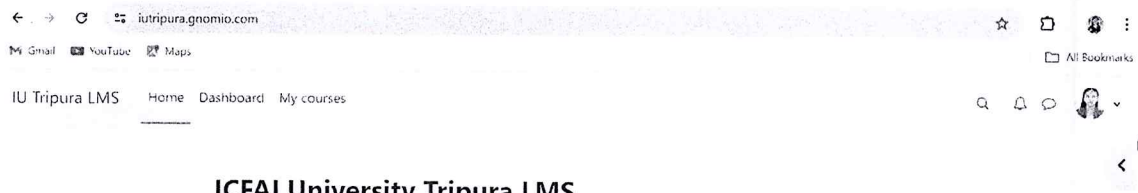

Announcements

The objective of the course is to impart the understanding of the sub-atomic particles and their properties. It will emphasize to gain knowledge about the different nuclear techniques and their applications in different branches of Physics and societal application. The course will focus on the developments of problem based skills. The acquire knowledge can be applied in the areas of nuclear, medical, archeology, geology and other interdisciplinary fields of Physics and Chemistry. It will enhance the special skills required for these fields.

Gender, School and Society

Course Settings Participants Grades Reports More

Course Outcome

On completion of this course the student teachers will be able to:

- develop basic understanding and familiarity with key concepts gender, gender bias, gender stereotype and empowerment.
- know about policies, plans and schemes of the government for addressing all forms of disparities and inequalities existing in the society.
- Understand gender issues in school and curriculum.

Course Outcome

- The student will be acquainted with salient features of education in India in ancient times.
- The students will be acquainted with salient features of education in India in Medieval times.
- The students will understand the salient features of education in British India.
- The students will understand the contribution of various committees and commissions on Education.
- The students will appreciate the development in Indian Education the Post-Independence Era.
