

**World Suicide Prevention Day** is celebrated globally on **10th September**, every year to create awareness about prevention of suicide and promotion of mental health. Suicide is a preventable public health concern, that can be prevented by equipping the individuals with right knowledge and skills to significantly reduce associated risks. To commemorate this day, the **Department of Clinical Psychology** of the ICFAI University Tripura organized a screening of **Short-film titled “THREADS”** on virtual mode 10th September, 2025.
