

Mr Chinmoy Debnath, President of Indian Buildings Congress(IBC), New Delhi visited ICFAI University, Tripura campus on 15th January,26 along with team members from IBC to see the ongoing construction of the Project using Steel Structure at ICFAI University, Tripura followed by a Technical Interactive Session. This session was conducted by the Construction Engineers involved in planning & execution of this project from ICFAI University Project Construction Deptt and provided practical exposure to the ongoing steel structure project through direct interaction with the team members from the Indian Buildings Congress (IBC). It also seeks to bridge the gap between academic learning and industry practices by fostering technical discussions and knowledge exchange.
