

"The Faculty of Special Education (FoSE) at ICFAI University, Tripura, organized a three-day Continuous Rehabilitation Education (CRE) Program onsite at the IUT Campus from March 15 to March 17, 2024. The program centered around the 'Realistic Practice in the Rehabilitation Field' theme, aimed at advancing accessibility to quality education and ensuring equal rights for children with special needs. Special educators from various sectors including government schools, private institutions, and clinics, hailing from over eight states, actively participated. The program featured resource persons from National Institutes who shared their expertise, enriching the event with valuable insights".
