

**"Dr. Tufan Singha Mahapatra, Assistant Professor, ICFAI University Tripura, delivered a compelling talk on 'Lanthanide Coordination Nanosheets for Explosive Detection' as a Resource Speaker at the National Seminar on "Environmental Sustainability and Tribal Development" on 15 March 2024 organized by Govt. Degree College, Dharmanagar, in collaboration with the Indian Science Congress Association. Highlighting innovative solutions for security screening and environmental protection, Dr. Mahapatra sheds light on the University's cutting-edge Central Instrumentation Center. Mr. Bilash Chandra Roy, PhD Scholar of Chemistry of the University also presented one of his works, 'Development of terpyridine-based metallogeles towards the manufacturing of sustainable materials', at this seminar."
