5.1 Teaching

The objective of classroom education is to awaken the curiosity of students, generate habits of rational thinking in them, gear their mind to face the unfamiliar and train them to be independent. Classroom instructions help a student to organize and correlate facts, comprehend ideas and to use knowledge creatively.

The teacher also has the additional responsibility of making the student seek knowledge on their own and encourage them to use all facilities offered by the University like library and laboratory, to optimize their learning process. As self-study by a student would form an important factor in the planning of teaching and evaluation, a student is required to co-operate and respond to meet this challenge.

Every course, whether single-section or multi-section, is conducted by a member of the faculty called an Instructor-in-Charge, with the assistance, wherever necessary, of required number of Instructors - who will be partners with them in meeting the full academic responsibilities and organizational needs of teaching and evaluation. Wherever the Instructor-in-Charge is mentioned hereafter, it connotes the team of instructors, acting as one entity under his/her captainship.

The Instructor-in-Charge with the team of instructors makes a comprehensive plan with respect to the conduct of the course even before the semester begins. In case of a multi-section course, the team remains in continuous interaction in order to ensure smooth operation of the course. Variations due to personal attitudes and styles are smoothed out so that the operational aspects including grading in various sections of a course are free from any seeming arbitrariness.

The Instructor-in-Charge/Course Instructor provides necessary information through the Course Handout at the beginning of the Class-work. Course Handout gives details about offered courses, their scope & objectives, text and reference books, lecture wise plan and other details as given below.

- (i) scope & objectives and references
- (ii) text books and reference books
- (iii) operations of the course (its pace, coverage and level of treatment);
- (iv) frequency/duration of classes
- (v) tentative schedule; textbooks and other reading assignments, home tasks etc
- (vi) components of evaluation like quizzes/tests/examination (announced or unannounced, open-book or closed-book), laboratory exercises, home assignments and their relative weightage
- (vii) attendance policy
- (viii) broad policy governing decisions about make-up tests
- (ix) mid-semester grading
- (x) grading procedure (overall basis, review of border line cases, effect of class average, etc.)
- (xi) chamber consultation hours and
- (xii) other matters found desirable and relevant.

5.2 Evaluation Components

Teaching and evaluation forms a coherent function and operates on the basis of mutual understanding and trust at ICFAI. The different components of evaluation are evenly spread out in the semester and are aimed to draw out responses from the students. Various attributes like spontaneous recall, practical application of concepts, ability to work on their own, competence in conceptualized arguments, aptitude to face unfamiliar situations are put to test. One of the components (examination) is comprehensive enough to include the entire course and is held at the end of the semester.

The evaluation component, weightage and evaluation method may vary depending on the nature of the course. However, in general, there will be two major written examination components: **Midterm of 30 marks** and **Comprehensive of 50 marks**. The components for internal evaluation of 20 Marks would be decided by the Course Instructor/Instructor-in-charge along with his team and announced at the beginning of the semester, with dates.

Mid-semester grading for each course will be announced to the students to inform their current position compared to other students in that course. This grade alert will help the student to improve their performance in the remaining evaluation components.

All written examinations are conducted at specified venues as per the pre-specified schedules. Examination schedules are announced to the students through Student Circulars. The written examination consists of questions like multiple-choice, short-answer, descriptive-answer, numerical problems. The pattern and type of questions may vary depending on the nature of the course.

5.2.1 Grand Viva

Students of B.Tech final semester will be appearing for Grand Viva through which the overall domain knowledge acquired by a student during 4-years B.Tech curriculum will be evaluated comprehensively. The evaluation will be done for a weightage of 5 units, by a panel of core branch faculties and external expert(s).

5.3 Evaluation Feedback

Just as evaluation is done in a continuous manner, feedback is also made available at regular intervals. The answer scripts are promptly evaluated, shown to the students for clarification on their performance and returned whenever practicable. The performance of the students with reference to the highest, lowest and average marks is discussed in detail in the class. Solutions with the marking scheme are displayed soon after a test.

5.4 Attendance Policy

A student must maintain a **minimum of 75% attendance**, failing which he/she will be barred from appearing in the examinations. A student must inform the concerned Instructor-in-Charge in case of any absence from class. In case of any absence due to illness the genuine medical certificate must be submitted to the course in charge immediately after joining back the class. However, final consideration of attendance status completely depends upon the respective Instructor-in-Charge.

If a student misses the Midterm exam due to attendance shortage and is unable to secure 75% attendance till the middle of the semester, he/she may withdraw from the course. If a student does not maintain requisite attendance by the end of the semester, his/her registration in that particular course may be cancelled and he/she will be required to register again (RRA) for the same course.

5.5 Unfair Practices

Students are prohibited from resorting to unfair practices during any evaluation components. Any of the following events (inclusive but not exhaustive) will be considered as unfair practice(s) during examinations.

Use of unfair means would result in academic actions against students leading to:

- (i) Cancellation of student's registration for the course(s)
- (ii) Cancellation of student's registration for the subsequent semester
- (iii) Cancellation of scholarship
- (iv) Cancellation of academic initiatives; i.e., facility of late registration, amendment to registration
- (v) Cancellation of any fee waiver

5.6 Make-up Policy

Any student, who misses any component of evaluation for genuine reasons, must immediately approach the Instructor-in-Charge/instructor with a request for make-up for the same, stating the reasons. If the Instructor-in-Charge is satisfied with the request, a make-up test would be given at the earliest. If a student anticipates a genuine difficulty in meeting the date of component of evaluation, he/she should take the Instructor-in-Charge/Course Instructor into confidence prior to the event. The decision of the Instructor-in-Charge/Course Instructor in the matters of make-up shall be final.

5.7 Grading Policy

FST emphasizes continuous and regular evaluation, which includes numerical marking in grading the student. At the end of a semester, letter grades A, B, C, D and E are awarded to the students based on their overall performance in the course. Absolute Grading System has been introduced, effective from 2016-17 session.

5.7.1 Letter Grades

The list of letter grades, the grade points associated with them and their qualitative meanings are given below. This Grading system is applicable for the students who took admission before 2016-17 academic session.

Grade	Qualitative	Grade Points attached
A	Excellent	10
B	Good	8
C	Fair	6

attendance till	D	Poor	4
in requisite	E	Exposed	2
and he/she			

However, New Grading Systems have been introduced for all programs from 2016-17 academic session. The new grading system rules are given below:

Grade	Grade range	Credit
A+	90 - 100	10
A	80 - 89	9
B+	70 - 79	8
B	60 - 69	7
C+	50 - 59	6
C	40 - 49	5
D	30 - 39	4
E	20 - 29	3

In order to arrive at these letter grades, the total marks in a particular course for all the students pursuing the course are tabulated in descending order (equivalently a histogram). A student should secure minimum of 20 marks in a course to obtain a valid grade. However, exception may arise in some special situation.

Clips and dips between the clusters and the nature of the clusters guide in drawing the dividing lines between the grades. In a normal class of large size, the C grade usually covers the average performance. This is, however not a hard and fast rule and exceptions may arise in cases of small classes, skewed histogram etc. Borderline cases may be considered individually on the basis of regularity in attendance, classroom discussions, progressive performance throughout the semester, etc.

5.7.2 Non-letter Grades

For the course Soft Skill, a student will get non-letter grades such as Satisfactory (S) or Unsatisfactory (U). These non-letter grades have no grade points attached to them.

5.7.3 Reports

At the end of a course, in certain cases, the Instructor-in-Charge can report, certain events/facts in suitable words, in place of letter grades discussed earlier. These reports are not to be construed as grades. The various reports are elaborated below:

- 1. Incomplete (I)

2. Grade Awaited (GA)
3. Withdrawn (W)
4. Registration Cancelled (RC), Required to Register Again (RRA) and Discontinued from the Program (DP)
5. Not Cleared (NC)

Incomplete (I)

If the Instructor-in-Charge finds that a student has not fulfilled some of the requirements of a course before the final deadline for transmitting the grades, and is satisfied that the student is able to transmit other grades or a report with or without this particular fulfillment, but at their discretion wishes to give the student an opportunity, then they can within the deadline, send a report 'I' (Incomplete) for that student and also inform the student of the same.

It shall be the responsibility of the student to contact the Instructor-in-Charge on time for replacement of the 'I' report within two weeks after the end of the semester. This may be relaxed by the competent authority, failing which the Instructor-in-Charge will communicate whatever the grade/report is possible for that situation. Whenever such relaxation is made, the concerned authority will specify at their discretion, with the consent of the Instructor-in-Charge, the date by which 'I' report has to be converted.

Grade Awaited (GA)

There are many situations where operational and practical difficulties may cause a delay in the communication of a grade. In situations like 1) pending case of unfair means 2) pending case of indiscipline 3) where the courses are being conducted at an off campus centre for IP students, co-ordination between the Institute and the centers may not work in a timely manner. In these circumstances, the concerned authority may make a specific authorization for the Instructor-in-Charge to report GA (Grade Awaited).

A student may also get a "GA" report if he/she due to genuine reasons is unable to appear for an examination on the scheduled date and his/her request for make-up has been granted. In such a case, the student should ensure by the end of the term that either,

- (i) He/she takes the make-up examination and converts the "GA" report into a letter grade or
- (ii) He/she makes an application to the concerned authority, through the Instructor-in-Charge to convert the "GA" report to "NC" report.

Whenever the report GA appears in the grade sheet, a student will not be allowed to register for the subsequent semester, until the student takes steps to convert the "GA" report into a letter grade or a "NC" report.

Withdrawn (W)

A student may seek withdrawal from course(s) in a semester for any of the following reasons:

- (i) The student is unable to register for the course(s) for genuine reasons.

- (ii) The student is unable to cope with the normal load and withdraws from the course(s) to reduce his/her academic load for a particular semester.

Request for withdrawal should be made to the competent authority, within two weeks of commencement of the semester in case of above point (i) and within the stipulated duration as specified in the academic calendar in case of above point (ii). In such cases, the grade sheet/transcript of the student will indicate 'W' (withdrawn) against the course(s) from which the student has withdrawn his/her registration. The student will have to register for the course(s) at the next offer and obtain a valid letter grade. If 'W' remark is on a pre-requisite course, registration to course(s) of the subsequent terms is possible only on obtaining a valid letter grade in the course with 'W' remark. If the student withdraws after the due date, the event will be reported as "RC" or "DP" as the case may be.

Registration Cancelled (RC), Required to Register Again (RRA)

If the registration of a student for a course has to be cancelled, it will be reported in the grade sheet as RC. Registration will be cancelled and a RC is issued in the following cases:

- (i) Cancellation is recommended as a part of disciplinary action against the student for resorting to unfair means during examination or other unprofessional behavior.
- (ii) Cancellation is recommended if the student gets less than the minimum required percentage of attendance.
- (iii) Cancellation is recommended if a provisionally admitted student fails to submit the proof of necessary documents required for registration and /or does not satisfy the minimum eligibility requirements for the admission within prescribed time limit.
- (iv) Cancellation is recommended when a student persistently and/or deliberately does not pay his/her dues.

RC has several meanings and is subject to the following:

- (i) If it is clearly known that the student is required to register again in the same course, the event will be reported as RRA (Required to Register Again).
- (ii) If RC amounts to discontinuation from the program, it will be reported as DP (Discontinued from the Program).
- (iii) If the cancellation of registration is not reported either as RRA or as DP but as RC, the meaning of the constraint has to be construed from the context in which the RC is reported.

Not Cleared (NC)

If a student continues to remain registered in a course but gives the Instructor inadequate opportunity to evaluate him/her by not attending the quizzes/tests/examinations/and other components of evaluation, or by appearing in the same for the sake of appearing without applying himself/herself to the task at hand or by submitting a blank answer script, these events will be reported as NC (Not Cleared).

Whenever a student gets a NC report in a course, irrespective of whether he/she has or has not obtained a grade in the course previously, the following terms will govern further action. It is to be noted that a NC cannot be ignored, except under the situations described in (b) and (c) below:

- a) If a student gets a NC report in a course which is in the compulsory package of his/her program, he/she is required to register again in the same course and get a valid grade therein.
- b) If a student gets a NC report in an elective course, he/she can either repeat the course to get a valid grade or ignore it to choose another course. However, a student must get valid grades in at least the prescribed number of electives in his/her program.
- c) If a student gets a NC report in a course which remains unaccounted after a process of transfer has been completed, it will not be possible for him/her to wipe out the NC report because this course is no longer a part of his/her program; and he/she can graduate with this NC.
- d) If a student gets a NC report in a project course, it will administratively be converted to RC by the competent authority and future registration in project courses will be done only if the concerned authority is satisfied with the candidate's interest in the course.
- e) If a student gets a NC in Thesis or Seminar, he/she will be required to register in the same for one more semester. Operationally, this is achieved by requiring him/her to register once again in as many units of Thesis or Seminar in which he/she had registered when he/she was awarded NC. If these two courses get separated due to NC in one of them, there is no need to register in the other.

5.7.4 Cumulative Grade Point Average (CGPA)

The Cumulative Grade Point Average (CGPA) is used to describe the overall performance of a student in all courses in which he/she is awarded letter grades, since his/her entry into the Institute up to and including the latest semester/term. It is also used for the declaration of division when the program is completed.

CGPA is the weighted average of the grade points of all the letter grades received by the student from his/her entry into the Institute and is computed as follows:

$$CGPA = \frac{\sum u_i g_i}{\sum u_i} = \frac{(u_1 g_1 + u_2 g_2 + u_3 g_3 + \dots)}{(u_1 + u_2 + u_3 + \dots)}$$

where, u_1, u_2, u_3, \dots denotes units associated with the courses taken by the student and g_1, g_2, g_3, \dots denotes grade points of the letter grades awarded in the respective courses. The reports obtained in a course or non-letter grades obtained in thesis/seminar will not alter the CGPA, since the same are not accounted for in the CGPA calculation.

When a student repeats a course in which he/she has already received a grade, as soon as a new grade is obtained, it will replace the earlier one in the calculation of CGPA. It is to be noted that only the latter grade in a course would be taken into account for the calculation of CGPA and not the better of the two grades.

5.7.5 Grade Sheet

A student's grades, reports, CGPA, etc., at the end of every semester/term will be recorded on a grade sheet, a copy of which will be issued to him/her. The grade sheet will be withheld when a student has not paid his/her dues or when there is a case of breach of discipline or unfair means pending against him/her.

While registration with approval of the appropriate authority is a token of permission to pursue studies, the grade sheet is a complete record of the outcome of what was intended in the original/amended/revised registration. The various grades and reports discussed above will be appropriately used to tally the grade sheet with original/amended/revised registration. It would be evident that this tally between what was registered for and what was obtained in terms of grades and reports will apply to all courses except for any course which was originally registered for, but subsequently replaced by another course through substitution.

The tally is made on a course basis at the end of the term to determine which of the courses have been cleared. A course is deemed to have been cleared if a student obtains a grade in the course. However, mere clearing of the prescribed courses one-by-one is not tantamount to fulfilling the requirements of graduation.

All grades secured, reports and other pertinent information for a semester are given in a grade sheet. The chronologically organized information from the grade sheets of a student with necessary explanation constitutes his/her transcript, which is issued at the time he/she leaves the Institute or at an intermediate point on request.

5.8 Minimum Academic Requirements

The education philosophy of the FST interlinks and distinguishes between the performance of a student in a single course and his/her overall cumulative performance. Accordingly, a student has to maintain an expected minimum academic requirement for the B.Tech Program, at the end of each semester. They are as follows:

- (i) A student should not have secured more than one 'E' grade in the semester.
- (ii) A student should have CGPA of at least 4.50
- (iii) A student should have at least cleared with his/her latest performance, such courses (counted from the point of his/her entry into the Institute) as are prescribed for a period that corresponds to two-thirds of the number of semesters spent by him/her since his/her entry into the University with reference to his/her current program. This means that at any stage of reckoning, a student should not have spent more than 50% extra time than what is prescribed for him/her up to that stage.

5.8.1 Minimum Credits Requirements

Following are the minimum requirement of credits, to be fulfilled by a student for his/her B.Tech degree.

Branch Name	Minimum Credits Required
Civil Engineering (CE)	186
Computer Science & Engineering (CSE)	192

Electronics & Communication Engineering (ECE)	199
Electrical & Electronics Engineering (EEE)	194
Mechanical Engineering (ME)	189

Meanwhile, following are the minimum requirement of credits, to be fulfilled by a student for his/her UG-PG degree.

Program Name	Minimum Credits Required
BCA Program	141
BCA-MCA Integrated Program	237
MCA Program	160
M.Sc. Mathematics Program	94

5.9 Academic Counseling Committee (ACC)

The minimum requirements that every student should meet at the end of every semester are mentioned in 5.8 above. Failure to meet even one of these requirements will automatically bring the student under the purview of the ACC or the designated authority. The ACC will take immediate charge of the student and ask him/her to follow a specific path so that he/she can be rehabilitated at the earliest; failing which, the student will be required to leave the University.

During the course of time of the purview, the student will lose all his/her options with regard to the various features permitted during the process of registration namely: option of naming the courses, choice of courses under electives, repetition of courses, taking a higher level course, departure from the normal load etc.; and will also lose all his/her options for amendment to his/her original registration namely, substitution and withdrawal. However, the ACC has the right to revise the original registration at any time during the semester. The student's entire semester load will be determined by the ACC and will have to be followed to the satisfaction of the ACC.

Once a student has been placed under the purview of the ACC, he/she should continue to be under its direct guidance until ACC, after being satisfied with his/her overall progress and performance, declares him/her to be outside its purview. All decisions of the ACC shall be final.

Students are advised to take serious note of the consequences of coming under the purview of the ACC as mentioned below:

Warning: A student, who comes under the purview of the ACC for the first time due to a performance which is not too bad, is warned to take studies seriously and improve the performance to be declared by the ACC in the next semester.

Severe Warning and Reduction in Course Load: If a student performs very badly and / or remains under the purview of the ACC in the subsequent semester, he/she would be severely warned and will not be allowed to

5.11 Certification

The following classification based on CGPA will be made and mentioned in the graduation certificate of the student.

Distinction	CGPA 9.00 or above
I Division	CGPA 7.00 or more but less than 9.00
II Division	CGPA 4.50 or more but less than 7.00

A student who fulfills the graduation criteria will be given a Provisional Certificate before the final certificate. In case of a student having outstanding dues against him/her to be paid to the University or any other affiliate/ associate organization of the University, his/her provisional certificate/ degree will be withheld until the dues are cleared.

PART – VI
Internship Program

6.1 Objective

The Internship Program (IP) forms an important component of education at FST. This program is an attempt to bridge the gap between the academic institution and industry by involving the students in an ongoing developmental activity under the direct supervision of experienced Faculty and experts from the Corporate World. The IP method of education and curriculum represents a controlled simulation of real life situations and circumstances. It is adopted by FST to link the educational institution with the real working environment.

The registration for the Internship program has to be done on the day of original registration only. Late registration as mentioned in 4.1 is not applicable for Internship Program.

Students at FST undertake two Internship Program Courses, at professional locations lasting for about four months where the students and faculty get involved in working on real-life situations.

- **For B.Tech Program**

- a) Internship Program-I (IP-I) is of two months duration, conducted during the summer term after second year of study carries a weightage of 5 units.
- b) Internship Program-II (IP-II) is of two months duration, conducted during either of the two semesters of the final year, that also includes a part of the summer term, carries a weightage of 5 units.

- **For BCA and BCA-MCA Integrated Program.**

- a) Summer Project-I is of two months duration, conducted during the summer term after first year of study carries a weightage of 5 units.
- b) Summer Project-II is of two months duration, conducted during the summer term after second year of study carries a weightage of 5 units.
- c) Major Information Technology Project which is conducted during the last semester of the study carries a weightage of 22 units, only for the students of BCA-MCA Integrated Program.

- **For MCA Program**

- a) Summer Internship-I is of two months duration, conducted during the summer term after first year of study carries a weightage of 10 units.
- b) Summer Internship -II is of two months duration, conducted during the summer term after second year of study carries a weightage of 10 units.
- c) Internship-III which is conducted during the last semester of the study carries a weightage of 25 units.

The Internship Program requires the students to undergo the rigor of the professional world in form as well as in substance, providing them an opportunity to apply their classroom knowledge to live situations which cannot be simulated in the classroom environment. It differs from the "Practical Training" as well as "Sandwich Schemes" as the entire student education at the Internship Program station is supervised by the FST faculty with active assistance of company counterparts. The program forms a part of the total credit towards student's degree.

Students are advised to take up assignments of direct interest to the host organization. These assignments involving team-work would be multidisciplinary, time bound, mission-oriented and goal-oriented. Solutions to various problems confronted in the assignment might be open-ended, involving an element of analytical thinking, processing and decision making in the face of insufficient data, parameters and uncertain situations.

6.2 Student-Faculty Interaction

A team of students, attending the Internship Program at an organization is assigned a faculty guide at the beginning of the program. The role of the faculty guide during the Internship program is executives while the IP is in progress. He/she plays the role of a mentor and facilitator to ensure smooth conduct of Internship Program. The faculty co-ordinates and interacts with the representatives of the host organization and monitors the student's progress.

It is the student's responsibility to regularly report to the faculty and co-operate in the effective monitoring.

The faculty guide interacts with the student's project guide and professional experts regularly to chalk out an effective interaction plan and to know about the student's progress in their respective projects and the quality and quantity of work put in by the students. For the final round of evaluation, the faculty should also ensure participation of the department head or other senior officials of the organization, apart from the project guide.

6.3 Student-Project Guide Interaction

The project guides from the host organizations help in identifying the assignment suitable for the students. Later they act as technical guides to the students. They evaluate the students on the progress of work. The project guide's time should not be taken for granted and the student should approach him/her well prepared for specific assistance and guidance or suggestions on the project.

6.4 Discipline and Conduct

Attendance

100% attendance is compulsory for the Internship Program. However, if for any genuine reason a student is unable to report to the allotted organization on any day, he/she should obtain a formal permission for leave of absence as per the rules and regulations of the organization. Permission should also be taken from the faculty in-charge of the Internship Program, FST.

Conduct and Behavior

As Interns, the students assume the role of FST ambassadors. The Institute expects the students to maintain high standards of professional and social conduct in the organization. FST expects the students at all times during the Internship Program, to conform to the rules and regulations of their place of work. It is important to be regular, punctual and obedient at work. During the period of Internship Program, a student shall be subjected to the leave rules of the organization he/she is working for and must ensure strict adherence to the timings of the organization.

Unprofessional behavior, misconduct, indiscipline, irregularity and unsatisfactory performance will lead to the cancellation of registration in the Internship Program. Consequently, a student may lose at least one year of study, besides other form of disciplinary action that FST might deem fit to take.

6.5 Evaluation Criteria

The educational process in the Internship Program seeks and focuses attention on many latent attributes that do not surface in normal classroom situation. Hence, the process of evaluation in these courses is designed with care so that information becomes available continuously. The following attributes are put to test here: intellectual ability, personality, commonsense, professional judgment, responsibility and punctuality, team work, leadership qualities, ability to take initiative, problem-solving and decision-making skills capability to meet deadlines, communicate through oral and written presentations etc. There will be two evaluation components- Mid-term and Comprehensive. In the mid-term, the evaluation will be on mid-term report (softcopy) submission, Seminar/Viva-voce, Group Discussion or Quiz. In the comprehensive exam, the evaluation will be on Project report, Seminar and Viva-voce.

6.5.1 Project Report (Compulsory)

A Project Report is a written presentation of the work done by the students on a given assignment. It is important to bear in mind that even though the project report is submitted only at the end of given assignment, in reality it is the culmination of a continuous effort on the part of Students.

The project report is judged on the following points:

- (i) Knowledge and comprehension of the problem.
- (ii) Ability to analyze and comprehend the subject and aim of the study.
- (iii) Logical sequencing, organization and handling of the data in the problem.
- (iv) Findings, observations and concluding remarks in terms of the objectives set earlier and the future scope of the project.
- (v) Organization of the report.

6.5.2 Seminar/Viva-Voce

The seminar evaluates the students in terms of the following:

- (i) Knowledge of basic concepts and physical principles and the ability to apply them.
- (ii) Additional knowledge acquired.
- (iii) Ability to analyze a given problem or situation.
- (iv) Logical development of the subject. Effective oral communication.
- (v) Self-reliance, co-operation & moderation.

6.5.3 Group Discussion

The Group Discussion evaluates the student in terms of the following:

- (i) Knowledge and comprehension of the problem/topic introduced for Group Discussions.

- (ii) Level of participation.
- (iii) Ability to lead the discussion in the correct direction and co-operate with fellow members.
- (iv) Ability to re-initiate the topic when the discussion drops due to lack of participation.
- (v) Ability to suggest new ideas for extending and improving the discussion.
- (vi) Ability to moderate discussions.
- (vii) Ability to create good impression on observers and members.

6.5.4 Quiz

Quiz evaluates the students in terms of the following:

- (i) Orientation of the student with the internship organization.
- (ii) Knowledge of basic concepts and physical principles and the ability to apply them.
- (iii) Additional knowledge acquired.
- (iv) Ability to analyze a given problem or situation.
- (v) Ability to follow logical path in problem solving efforts.

6.5.5 Evaluation through Observation

During Internship Program, students are evaluated through observations by the faculty and project guide for the following traits:

- (i) Regularity and ability to meet deadlines.
- (ii) Sense of responsibility.
- (iii) Initiative, leadership and co-operation.
- (iv) Industry and diligence.
- (v) Social sense and adaptability to practical situations.

Finally at the end of IP duration student will report to the IP Coordinator and appear for Internship Project presentation. The final evaluation will depend on:

- (i) Project Report
- (ii) Presentation performance
- (iii) Other attributes as mentioned above

6.5.6 Diary

Further, a student is expected to maintain a diary which is an attempt to cultivate the habit of documentation, enabling the student to develop his/her own thought process and reasoning abilities. FST faculty will check and sign the diary periodically. Here, the student is tested for the following attributes.

- (i) Data procurement, calculations and presentation.
- (ii) Thought process.
- (iii) Regularity.

6.6 Internship Transcript

At the time of graduation, in addition to the Graduation Certificate, each student is given an 'Internship Transcript', which contains among other things, a rating sheet summarizing the assessment of a student's professional personality obtained by the above process by the FST faculty and resident at the internship station.

attendance till	D	Poor	4

and he/she			

However, New Grading Systems have been introduced for all programs from 2016-17 academic session. The new grading system rules are given below:

Grade	Grade range	Credit
A+	90 - 100	10
A	80 - 89	9
B+	70 - 79	8
B	60 - 69	7
C+	50 - 59	6
C	40 - 49	5
D	30 - 39	4
E	20 - 29	3

In order to arrive at these letter grades, the total marks in a particular course for all the students pursuing the course are tabulated in descending order (equivalently a histogram). A student should secure minimum of 20 marks in a course to obtain a valid grade. However, exception may arise in some special situation.

Cuts and dips between the clusters and the nature of the clusters guide in drawing the dividing lines between the grades. In a normal class of large size, the C grade usually covers the average performance. This is, however not a hard and fast rule and exceptions may arise in cases of small classes, skewed histogram etc. Borderline cases may be considered individually on the basis of regularity in attendance, classroom discussions, progressive performance throughout the semester, etc.

5.7.2 Non-letter Grades

For the course Soft Skill, a student will get non-letter grades such as Satisfactory (S) or Unsatisfactory (U). These non-letter grades have no grade points attached to them.

5.7.3 Reports

At the end of a course, in certain cases, the Instructor-in-Charge can report, certain events/facts in suitable words, in place of letter grades discussed earlier. These reports are not to be construed as grades. The various reports are elaborated below:

- 1. Incomplete (I)

- (ii) The student is unable to cope with the normal load and withdraws from the course(s) to reduce his/her academic load for a particular semester.

Request for withdrawal should be made to the competent authority, within two weeks of commencement of the semester in case of above point (i) and within the stipulated duration as specified in the academic calendar in case of above point (ii). In such cases, the grade sheet/transcript of the student will indicate 'W' (withdrawn) against the course(s) from which the student has withdrawn his/her registration. The student will have to register for the course(s) at the next offer and obtain a valid letter grade. If 'W' remark is on a pre-requisite course, registration to course(s) of the subsequent terms is possible only on obtaining a valid letter grade in the course with 'W' remark. If the student withdraws after the due date, the event will be reported as "RC" or "DP" as the case may be.

Registration Cancelled (RC), Required to Register Again (RRA)

If the registration of a student for a course has to be cancelled, it will be reported in the grade sheet as RC. Registration will be cancelled and a RC is issued in the following cases:

- (i) Cancellation is recommended as a part of disciplinary action against the student for resorting to unfair means during examination or other unprofessional behavior.
- (ii) Cancellation is recommended if the student gets less than the minimum required percentage of attendance.
- (iii) Cancellation is recommended if a provisionally admitted student fails to submit the proof of necessary documents required for registration and /or does not satisfy the minimum eligibility requirements for the admission within prescribed time limit.
- (iv) Cancellation is recommended when a student persistently and/or deliberately does not pay his/her dues.

RC has several meanings and is subject to the following:

- (i) If it is clearly known that the student is required to register again in the same course, the event will be reported as RRA (Required to Register Again).
- (ii) If RC amounts to discontinuation from the program, it will be reported as DP (Discontinued from the Program).
- (iii) If the cancellation of registration is not reported either as RRA or as DP but as RC, the meaning of the constraint has to be construed from the context in which the RC is reported.

Not Cleared (NC)

If a student continues to remain registered in a course but gives the Instructor inadequate opportunity to evaluate him/her by not attending the quizzes/tests/examinations/and other components of evaluation, or by appearing in the same for the sake of appearing without applying himself/herself to the task at hand or by submitting a blank answer script, these events will be reported as NC (Not Cleared).

5.7.5 Grade Sheet

A student's grades, reports, CGPA, etc., at the end of every semester/term will be recorded on a grade sheet, a copy of which will be issued to him/her. The grade sheet will be withheld when a student has not paid his/her dues or when there is a case of breach of discipline or unfair means pending against him/her.

While registration with approval of the appropriate authority is a token of permission to pursue studies, the grade sheet is a complete record of the outcome of what was intended in the original/amended/revised registration. The various grades and reports discussed above will be appropriately used to tally the grade sheet with original/amended/revised registration. It would be evident that this tally between what was registered for and what was obtained in terms of grades and reports will apply to all courses except for any course which was originally registered for, but subsequently replaced by another course through substitution.

The tally is made on a course basis at the end of the term to determine which of the courses have been cleared. A course is deemed to have been cleared if a student obtains a grade in the course. However, mere clearing of the prescribed courses one-by-one is not tantamount to fulfilling the requirements of graduation.

All grades secured, reports and other pertinent information for a semester are given in a grade sheet. The chronologically organized information from the grade sheets of a student with necessary explanation constitutes his/her transcript, which is issued at the time he/she leaves the Institute or at an intermediate point on request.

5.8 Minimum Academic Requirements

The education philosophy of the FST interlinks and distinguishes between the performance of a student in a single course and his/her overall cumulative performance. Accordingly, a student has to maintain an expected minimum academic requirement for the B.Tech Program, at the end of each semester. They are as follows:

- (i) A student should not have secured more than one 'E' grade in the semester.
- (ii) A student should have CGPA of at least 4.50
- (iii) A student should have at least cleared with his/her latest performance, such courses (counted from the point of his/her entry into the Institute) as are prescribed for a period that corresponds to two-thirds of the number of semesters spent by him/her since his/her entry into the University with reference to his/her current program. This means that at any stage of reckoning, a student should not have spent more than 50% extra time than what is prescribed for him/her up to that stage.

5.8.1 Minimum Credits Requirements

Following are the minimum requirement of credits, to be fulfilled by a student for his/her B.Tech degree.

Branch Name	Minimum Credits Required
Civil Engineering (CE)	186
Computer Science & Engineering (CSE)	192

register with normal academic load in the ensuing semester. The ACC will work out a package of courses with reduced load for the ensuing semester, so that the student gets a chance to improve and come out of the purview of the ACC.

Probation: If the advice and guidance of the ACC is not taken seriously by the student, who continues to perform badly, he/she might be given a last chance and kept on probation during the next semester. During this semester his/her progress will be closely monitored. If the student does not show satisfactory improvement, he/she may be asked to leave the University. A student might be put on probation directly (without warning) if his/her performance so warrants.

Discontinued: If a student on probation during a semester fails to improve his/her performance to the satisfaction of the ACC, he/she would be discontinued from the Program (DP) and would be asked to leave the University. However, if the student shows a satisfactory improvement, ACC may extend his/her probation by one more semester, so that he/she may come out of the purview of the ACC.

It must be noted that any student under the purview of the ACC found to be involved in any act of indiscipline or unfair means in examination at any time would be immediately asked to leave the University.

It should therefore be the single minded objective of the student to fulfill the minimum academic requirements stipulated, thus enabling himself/herself to be declared outside the purview of the ACC.

5.10 Graduation Requirements

A student is deemed to have fulfilled the requirement of graduation for the program when he/she satisfies the following conditions:

- (i) has cleared all the courses prescribed for him/her in his/her program
- (ii) has obtained a minimum CGPA of 4.5 (while 5.5 in case of post-graduation)
- (iii) has remained outside the purview of the ACC or been declared outside its purview
- (iv) has overcome all the consequential stipulations of an NC report; except where there is an NC report in an elective course over and above the prescribed number of elective courses or in a course which has ceased to be a part of his/her current program as a result of transfer of program.

A student is deemed to have become eligible for the Bachelor's degree if, in addition to the above requirements he/she has,

- (i) satisfied all the rules of evaluation.
- (ii) no case of indiscipline or unfair means pending against him/her.

However, in case of a student having outstanding dues against him/her to be paid to the University, hostel or any other recognized organ of the University, his/her degree will be withheld until the said dues are cleared.

PART – VI
Internship Program

6.1 Objective

The Internship Program (IP) forms an important component of education at FST. This program is an attempt to bridge the gap between the academic institution and industry by involving the students in an ongoing developmental activity under the direct supervision of experienced Faculty and experts from the Corporate World. The IP method of education and curriculum represents a controlled simulation of real life situations and circumstances. It is adopted by FST to link the educational institution with the real working environment.

The registration for the Internship program has to be done on the day of original registration only. Late registration as mentioned in 4.1 is not applicable for Internship Program.

Students at FST undertake two Internship Program Courses, at professional locations lasting for about four months where the students and faculty get involved in working on real-life situations.

- **For B.Tech Program**

- a) Internship Program-I (IP-I) is of two months duration, conducted during the summer term after second year of study carries a weightage of 5 units.
- b) Internship Program-II (IP-II) is of two months duration, conducted during either of the two semesters of the final year, that also includes a part of the summer term, carries a weightage of 5 units.

- **For BCA and BCA-MCA Integrated Program.**

- a) Summer Project-I is of two months duration, conducted during the summer term after first year of study carries a weightage of 5 units.
- b) Summer Project-II is of two months duration, conducted during the summer term after second year of study carries a weightage of 5 units.
- c) Major Information Technology Project which is conducted during the last semester of the study carries a weightage of 22 units, only for the students of BCA-MCA Integrated Program.

- **For MCA Program**

- a) Summer Internship-I is of two months duration, conducted during the summer term after first year of study carries a weightage of 10 units.
- b) Summer Internship -II is of two months duration, conducted during the summer term after second year of study carries a weightage of 10 units.
- c) Internship-III which is conducted during the last semester of the study carries a weightage of 25 units.

The Internship Program requires the students to undergo the rigor of the professional world in form as well as in substance, providing them an opportunity to apply their classroom knowledge to live situations which cannot be simulated in the classroom environment. It differs from the “Practical Training” as well as “Sandwich Schemes” as the entire student education at the Internship Program station is supervised by the FST faculty with active assistance of company counterparts. The program forms a part of the total credit towards student’s degree.

6.6 Internship Transcript

At the time of graduation, in addition to the Graduation Certificate, each student is given an 'Internship Transcript', which contains among other things, a rating sheet summarizing the assessment of a student's professional personality obtained by the above process by the FST faculty and resident at the internship station.
